Resume

@changkun 

changkun.de 

Education

University of Munich (LMU)

Ph.D. Candidate in Media Informatics.

Munich, Germany

Feb. 2019 – Present

University of Munich

Master of Science in Human-Computer Interaction (HCI); GPA: 1.63/1.00

Munich, Germany

Oct. 2016 – Jan. 2019

- **Transcript:** [Link](#)
- **Thesis:** *Understanding and Predicting Web Browsing Behavior.*

Southwest University for Nationalities (SWUN)

Bachelor of Engineering in Computer Science; Grade: 3.74/4.00, "Top 1 Student".

Chengdu, China

Sep. 2012 – Jul. 2016

- **Transcript:** [Link](#)
- **Thesis:** *Designing Alternative Contact-free Control Modalities for Smart Watches.*

Work Experiences

Research Assistant

University of Munich

Munich, Germany

Aprl. 2018 – Present

- **Instructor:** I am responsible for the design and teaching of the [Practical Geometry Processing](#) course. In the class, I mainly teach students about geometry processing algorithms, practice how to implement them from scratch, and eventually writing reproducible rendering scripts in Blender. Resources are on [GitHub](#).
- **DevOps:** I am responsible for compatibility development work and the execution of the eventual migration operation of a 15 years old PHP and SVN-based CMS system that was developed in 2005. Resources are on [GitHub](#).
- **Teaching assistant:** I am responsible for the design and organization of the practical part of the Lecture [Computer Graphics](#). Behind the scene, the whole coding exercises are redesigned for the fit of modern topics in graphics. Resources are on [GitHub](#).
- **Teaching assistant:** I am one of the responsible people for the design and organization of the practical part of Lecture [Online Multimedia](#). Behind the scene, I bring novel web development topics into the teaching, such as React, Docker, Kubernetes, etc. Resources are on [GitHub](#).
- **Teaching assistant:** I am responsible for the organization of [Seminar Advances in Computer Graphics](#).
- **Tutor:** [Deep Learning and Artificial Intelligence](#), notes on [GitHub](#)
- **Tutor:** [Machine Learning](#), notes on [GitHub](#).

Backend Software Engineer (Remote)

LabEx Technology Ltd

Chengdu, China

Apr. 2018 – Jan. 2019

- **Team leader and leading backend development of the oversea product:** I lead and responsible for the product development in backend and frontend. I evolve the existing architecture and split a monolithic backend web application into multiple microservices. The product scales machine cluster from 20 to 200 for active daily users, and its user group increases from 5k to 30k during my incumbency.
- **Remote desktop control proxy:** I responsible for and developed a middleware that provides generic remote desktop proxy in Go. The proxy translates VNC/RDP/SSH protocol data, and establish WebSocket connection to a web browser for providing remote desktop GUI.
- **Multi-cloud automation:** I developed a fully automated multi-cloud resource management microservice in Go. The service defines a general abstraction cross all cloud provider, it automatically manages all user requested resources allocation and releases outdated resources. For instance, a user of the service can allocate new cloud instances for temporal using without noticing the instance was allocated in either AWS, AlibabaCloud, or others. The service supports more than 15 cloud products and integrated 3 cloud providers, being able to support almost unlimited concurrent users and has been used by 10k+ users.
- **Cluster management service:** I developed a microservice in Go that similar to Kubernetes and Docker Swarm. The service manages multiple server clusters, and auto-scaling its cluster size upon request cross multiple cloud providers. Each cluster contains multiple physical machines, and each machine runs many docker containers. The key feature of the service eliminates the difference between the physical machine and the docker container. The runtime of the service includes a system monitor with request prediction algorithm that I invented for efficient auto-scaling with consideration of overcommit ratio and a task scheduler for managing all distributed asynchronous task execution with two-level caching optimization.
- **Used tech. stack:** Vue, jQuery, Webpack, Electron; Backend: Go, Cgo, Gin, Beego, gRPC, MySQL, MongoDB, Redis, Hypervisor, Nginx, Docker, Kubernetes, AWS, AlibabaCloud, etc.

Fullstack Engineer (Freelance)

Munich, Germany

Rocketlingo UG

Nov. 2017 – Mar. 2018

- **Language teaching voice bot:** I am part of the team in developing a voice bot that provides English learning teaching service. The bot can communicate with its user and improve their English skill by the real-time response. My responsibility is to implement the backend support designed conversations using Amazon Alexa.
- **Speech recognition solution & Web development:** I responsible for the development of speech recognition solution over web technologies, such as using WebSocket for audio streaming, using Google Cloud STT and TTS services for speech recognition and synthesis, etc. The challenging part of using existing speech recognition service for a language learning application is a new language learner sometimes does not produces positive audio samples, and even multilingual. Therefore, I developed many text-based falt tolerances technique for improving the understanding of user speech based on machine learning algorithms.

Skills

- I am specialized in computer graphics, machine learning, and modern web development using **go**; **javascript**; **c/c++**; **python**; markdown; \LaTeX . I also speak native Chinese; fluent professional English; elementary German.
- **Certificates:** Coursera, Andrew Ng: [Deep Learning Specializations](#), certificates: [1](#), [2](#), [3](#), [4](#), [5](#)

Open Source Contribution

- **Tensorflow** (151+ stars): Contributor
- **Go** (79.6k+ stars): Contributor

- **Modern C++ Tutorial (10.3k+ stars)**: I am the author of the book. The book provides the state-of-the-art content towards modern C++, which includes C++11/14/17/20.
- **The golang.design Initiative**: I am the founder of the organization.
- **Go under the hood (2.4k stars)**: I am the author of the book, this book is part of the golang.design initiative. The book discusses Go source code, includes its runtime scheduler, garbage collection, compiler and etc.
- **Official Tensorflow document translation (3.7k+ stars)**: I am the main contributor and project maintainer.
- **Juejin Translation Public Community (27.8k+ stars)**: Major contributor, translated 50+ articles. Main reviewer of AI related articles.
- **The Swift Programming Language Chinese Translation (19.9k+ stars)**: Major contributor (in Swift 1.x). The translation was officially acknowledged by Apple Inc.
- **occamy**: The project implements a modern remote desktop proxy written in Go. It provides web browser GUI for connecting vnc/rdp/ssh servers.
- **Check my GitHub homepage for more projects**: github.com/changkun

Selected Publications

- Changkun Ou, Daniel Buschek, Malin Eiband, Andreas Butz *Modeling Web Browsing Behavior across Tabs and Websites with Tracking and Prediction on the Client Side*. arXiv:2103.04694 preprint, March 2021. [English](#).
- Kai Holländer, Luca Schellenberg, Changkun Ou, Andreas Butz *All Fun and Games: Obtaining Critical Pedestrian Behavior Data from an Online Simulation* In ACM CHI Conference on Human Factors in Computing Systems, Late-Breaking Work, April 25, 2020, Honolulu, HI, USA. [English](#)
- Changkun Ou, Yifei Zhan, Yaxi Chen. *Identifying Malicious Players in GWAP-based Disaster Monitoring Crowdsourcing System*. In IEEE ICAIBD' 19: Proceedings of the 2nd International Conference on Artificial Intelligence and Big Data. Chengdu, Sichuan, China, May 25-28, 2019. [English](#), [Slides](#).
- Changkun Ou, Jingyi Li, Yong Ma. *Cultivation and Incentivization of HCI Research and Community in China: Taxonomy and Social Endorsements*. In CHI'19 Workshop on "HCI in China: Research Agenda, Education Curriculum, Industry Partnership, and Communities Building", Glasgow, UK, May 2019, 2019. [English](#), [Poster](#).
- Changkun Ou, Malin Eiband(advisor), Daniel Buschek(co-advisor), Heinrich Hußmann(responsible professor). *Understanding and Predicting Web Browsing Behavior*. 2019, **Master Thesis**.

Honors & Awards

- | | |
|---|------------------|
| • Papers with Special Recognitions | Munich, Germany |
| <i>Outstanding Reviews</i> | <i>Nov. 2019</i> |
| • Siemens AILab Hackathon | Munich, Germany |
| <i>2nd Winner</i> | <i>Nov. 2017</i> |
| • China National Scholarship | Chengdu, China |
| <i>at UESTC</i> | <i>Sep. 2016</i> |
| • Excellent Bachelor Graduation Thesis Award | Chengdu, China |
| <i>at SWUN</i> | <i>Jun. 2016</i> |

- **Best University Graduates Student Award** Chengdu, China
at Sichuan Province Jan. 2016
- **China National Scholarship** Chengdu, China
at SWUN Sep. 2014
- **American Mathematical Contest in Modeling(MCM) 2014** Chengdu, China
Meritorious Winner Apr. 2014
