Explanations of the listing

Grades on each piece of work are indicated as: 1 = very good; 2 = good; 3 = satisfactory; 4 = sufficient; 5 = not sufficient. To guarantee a higher degree of differentiation, grades may be decreased or increased. Grades better than 1.0 and worse than 4.0 (except 5.0) are not possible. The overall grade is computed as the arithmetic mean of the graded courses weighted according to credit points; only the grades in bold face are fully considered.

Status: PA = passed; TR = transferred; SU = signed up; FA = failed; TF = totally failed

CP: credit points according to the ECTS (European Credit Transfer System). In the second last column the credit points of each listed course is given, the last column (bold face) displays the credit points imputed according to the underlying degree program.

This print-out documents the current accomplishments of the student in this program. It is not a certification of a completed examination. A copy of this print-out is kept by the examination office in charge under the ID given bottom left.
